INSTITUTE SYMPOSIUM

SPONSORSHIP
BROCHURE

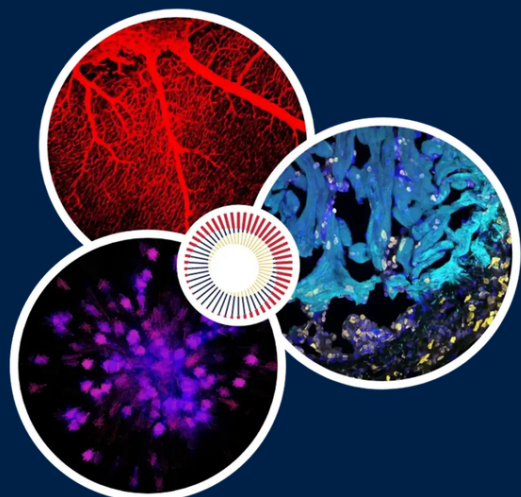

ABOUT IDRM

IDRM brings together researchers from Cardiovascular Science, Neuroscience, and Immunology to understand how organs develop, how disease occurs, and how tissues can be repaired.

Researchers work within state-of-the-art laboratories and utilise technologies including stem cell and organoid models, advanced imaging, genomics, single-cell analysis, AI, and computational biology. Through collaborations with clinicians, industry, and partners worldwide, IDRM translates discovery science into future healthcare advances.

RESEARCH THEMES

- **Cardiology**
- **Immunology**
- **Neurology**

THE EVENT

On **Thursday 18 March 2027**, the IDRM will host a flagship Symposium celebrating five years of research excellence. The event will bring together researchers, clinicians, industry partners, and external stakeholders for a day of scientific talks, discussion, and networking.

Featuring leading researchers from across the Institute alongside invited external speakers, the Symposium will showcase pioneering discoveries, emerging technologies, and opportunities for collaboration. For sponsors, it offers direct engagement with a highly influential biomedical research community through exhibition, networking, and brand visibility opportunities.

WHY SPONSOR?

- Connect with Oxford researchers and clinicians
- Showcase products and services to a targeted audience
- Strengthen relationships with existing collaborators
- Increase brand visibility across the biomedical research community
- Support the next generation of scientific discovery

THE VENUE

The 2027 IDRM Symposium will be held in the Life and Mind Building, one of the University of Oxford's newest interdisciplinary research spaces.

The venue offers a modern lecture theatre and dedicated networking areas, providing sponsors with excellent opportunities to engage with delegates throughout the day.

Its central location within Oxford's research community and integrated event spaces will support meaningful interaction during breaks, lunch, and the evening drinks reception.

BRONZE SPONSOR

Looking for something different?
